

My style is PHOTOJOURNALISTIC preservation. I want to beautifully capture the essence of your wedding, not direct your actions. I believe that when your guests feel relaxed their true personalities shine. We're like a flies on the wall, allowing you to live your wedding day as it was meant to be!

Or post it on the internet and send it to all who couldn't be there. I'll be shooting it personally and bring along my assistant. Sound will be recorded professionally and Editing will be done with care and flare. It's a lot like a 3 part Music video with a distinctive beginning, middle, and end.

Freelance Clients:

MTV, Amnesty International, Microsoft Corporation, Time Warner Cable, Lords of the Underground, Cornell University, Novi Bridal Expo '08, & many more!

I've been working as a freelance videographer for over 6 years in New York & San Francisco. In fall 2007, I relocated to Metro Detroit. I have a BA in Cinema from San Francisco State University. I've traveled the globe as a documentarian & I've self-produced everything from feature length Documentaries & commercials for MTV to Anti-racism campaigns for Amnesty International. The Novi Bridal Expo hired me to produce their '08 wedding promo. And I have numerous SF & NY weddings under my belt as well.

Being a married man now with a 3 year old daughter, the travel has been hard on me. So I've decided to focus on weddings and stay close to my family. My best friend is also my primary assistant. Starting in January '08, I'll also be teaching the Documentary class at the DFC "Detroit Film Center".

Every wedding I produce is shot with 2 cameras & 2 operators. In the past, I've shot one camera weddings but it's a risk that I do not advise. This is one of the most important days of your life. You only get one chance to get it perfect. Weddings provide unique challenges. One must have an eye for natural light, the experience to record professional audio, and the sensibility to preserve the natural emotions of the day. The goal is to capture professional video & audio, but not turn your wedding into a video shoot. It's a fine line of subtleties.

Reserve your day today. I'm honest & I have your best interest in heart.

All the best,

Brad Erlandson
